

Statement on SVHC and Annex XIV of REACH

It is our intention to assist our customers to meet the information obligations set by Article 33 of Regulation (EC) No 1907/2006 (REACH). These obligations apply to suppliers of articles that contain above 0.1 % weight by weight of a substance which is on the Candidate List of Substances of Very High Concern (SVHC) for Authorisation. For information purposes, the current SVHCs are listed in the appendix 1 to this statement. You will also find the link to the current version of the Candidate List in appendix 1.

Please consult section 3 "Composition" in the Safety Data Sheets (SDS) issued for member states of the European Union (EU) or the European Free Trade Association (EFTA). Should an SVHC be contained at or above 0.1 % weight by weight, then the following statement is displayed in section 3: "This product contains substances of very high concern (Regulation (EC) No 1907/2006 (REACH), Article 57)" and the related substance(s) will be identified. It is also stated if no such SVHC is contained at or above 0.1% weight by weight.

In case a substance which has been recently added to the SVHC Candidate List is not already declared due to other reasons in section 3 "Composition" in the SDS, this section will be updated by Covestro within some weeks after publication of a new SVHC Candidate List by the European Chemicals Agency (ECHA). Every customer in the EU and EFTA will then receive the updated SDS on our own initiative, provided that he has been supplied by us with the product concerned within the past 12 months. You may download the most recent SDS via the following link: <https://www.productsafetyfirst.covestro.com/en/sdssearchpage/sds>

SVHC, which have already been included in Annex XIV of the REACH Regulation (Authorisation List) are listed in the appendix 2 to this statement. These substances within the authorisation process of REACH are reported on our SDS at or above 0.1 % weight by weight in section 3 "Composition" similar to substances on the Candidate List.
